

## **Powerhouse of the sun**

It's amazing to think that within us and underneath us  
lie exponentially magnificent multitudes of life  
sustaining and supporting.

Wipe them clean,  
Purify our soil, and our guts.  
Sickness.  
Life takers.  
Strip away rights, health, dignity,  
and livelihood.  
For a dollar.  
For greed.

We need...  
Our world to be more  
Peaceful, beautiful, giving,  
Open, receptive, accepting, appreciative  
Of life  
Sustaining supporting regenerating one another  
As intricate links in the network,  
Always connected.
