

**2020**

I just feel...  
Uncertain  
I feel white and yellow  
Blanched bleached brain  
From sunshine or maybe  
Too much rain.  
The streets are almost empty  
Apocalypse now  
Apocal-equinox  
Corona take 10  
If I hear "covid-19" again  
Doesn't seem real  
Was already on  
High alert,  
Survival mode,  
Relative isolation  
But this squared (quadrupled) it up a notch  
Uncertain  
If these days will ever end  
How it can be so nice sunshine spring  
And yet the world is ending?
